

HUMBUG MOUNTAIN WEAVERS & SPINNERS GUILD

WeGO Report for April 7, 2018

The Weavers' Study Group continues to meet in members' homes and studios to share "how-to's", problem solving and generally give each other encouragement. We have had as many as 17 people at our casual meetings.

Humbug Guild incorporates many fiber skills including basket making dying etc. We have recently acquired several new members.

In Nov. a long time member who has had a stroke donated looms, tools and yarns to the guild. She and her husband also brought many pieces of her beautiful work and collection to show. She told the technique and history of each piece leaving us all in awe!

In December we had our annual party including a gift exchange and shared goodies.

In January we attended a silk weaving lecture at the Coos Historical Museum

In Feb, the name of the program was "Everything I know About Wool". This was very informative about the wool produced by different sheep and how best to use that wool.

In March, We had a lecture on differing dyes and techniques to use with each type of dye.

Barbara Martin Simonson, Humbug WeGO Rep
Presented by Sandie McDonald, Humbug Pres.
