

Heritage Textile Arts Guild  
Spring 2017 WeGo Report

Our guild meets from April – October and only occasionally during the winter months. Our last meeting of 2016, held on October 8 focused on “Tips and Tricks” about spinning wheels. Members brought their wheels and a great discussion was held on care and keeping of spinning wheels by knowledgeable members.

Continued discussion was held about our sales events and how all members could participate-including selling and demonstrating. Members brought in their completed projects from our August weaving class and we decided to pursue meeting in the spring at the new Coos County History Musuem.

We did not meet in February as planned because of snow! So, our first meeting of the year will be April 15 at our new location. We will show off our weaving, spinning, felting, knitting, etc projects from the long, wet winter! We will discuss summer programs and workshops. In June we plan to have a 'dye day' in Bandon with the Humbug Guild.
