

umbug Mountain Weavers & Spinners Guild

WeGO Report October 13, 2018

Our guild had our very first busy summer! We all voted to meet 12 times a year rather than taking a summer break, so that we could more fully participate in the county and state fairs. After our annual June picnic, we all got busy prepping projects to show. Our official fair coordinator, Larry Skeels did an outstanding job of encouraging everyone, providing exhibitor's information and tags, and transporting everything.

Meanwhile our guild has been working on a charity quilt to be raffled off or donated to a local charity when finished. Contributing members used multiple techniques to create 12 inch squares, which are being affixed to a black background. It's quite colorful, and will be cozy warm. We hope to complete the project very soon.

Our new president has come up with some very fresh and innovative ideas regarding acquiring new members. We are also implementing ideas garnered from you all at the last WeGO meeting in Eugene. Thank you every one of you, for your generous sharing of techniques to snare new members.

And here comes winter!
